

Calcutta Tube company

Civil, Mechanical, Electrical Contractor, O & M of WTP, ETP, LPG, BIO-GAS Plant

BUSINESS

PROFILE

Overview

Established in 1996 as a supplier of engineering parts, Calcutta Tube Company (CTC) has grown into a leading contractor for major oil sector clients, including IOCL. Today, CTC provides extensive services across oil refineries, storage terminals, oil jetties, tank wagons, and LPG facilities, with a significant presence in locations such as Chennai, Nagapattinam (CPCL refinery), and Paradip Port refinery.

Core Services

- **Civil Works**
- **Mechanical Contracting**
- **Electrical Contracting**
- **Process and Fire Piping**
- **Civil and Pre-Engineered Building (PEB) Design**
- **Instrumentation**
- **OEM service for ETP/WTP/STP/OWS**

Management Profiles

Shri Dhiren Chatterjee – Founder & Advisor

- With over 45 years in contracting, Shri Dhiren Chatterjee brings expertise in rate analysis, manpower mobilization, manufacturing, and logistics.

Biswajit Chatterjee

- A second-generation leader, experienced in tendering, estimation, cost control, finance management, and OEM maintenance support.

Prasenjit Chatterjee

- With 20+ years in the Oil & Gas sector, he oversees marketing, logistics, and funding for CTC.

Karthikeyan, B.E. (Mechanical)

- Leads the Technical Support Division with over 40 years of experience in manufacturing, refinery projects, and pressure part fabrication. Also heads the EPC and Design Division.

Mr. Mozaber Hamid, M.E., MBA

- Heads the Civil and Structural Design Office in Chennai, supporting CTC's design needs.

Anurag Gupta, CA – Finance Head

- Finance Head, responsible for finance management and project cost auditing.

Key Project Personnel

Purusothaman, B.E. – Head of Civil and Structural Work, Chennai

- 8 years of experience in civil projects.

Sampath, B.E. – Civil Engineer

- Experienced in structural and PEB erection, planning, execution, and billing.

Sujit Das – Safety Officer

- 8 years of industrial safety experience.

Subhojit Das, M.E.

- Skilled in piping, structural, and vessel erection, with experience in handling heavy cranes and working at heights.

MD Ali, DME

- Assists with Non-Destructive Testing (NDT) and quality assignments.

Rafeque Quadri – Accounts Head

Workforce and Expertise

We have engaged 200 workers across various construction projects. Additionally, we support refinery operations through manpower contracts.

Our strength lies in our ability to quickly mobilize skilled refinery-based workers, along with expertise in material handling, erection, specialized welding, QA, and documentation.

Financials

- 2021-22: INR 8 Cr
- 2022-23: INR 10 Cr
- 2023-24: INR 12 Cr
- 2024-25 (projected): INR 20-25 Cr

Current Contracts

CTC holds multiple Annual Rate Contracts (ARC) for operations and maintenance in oil refineries, covering key units like AVU, DCU, FCC, KTU, and utilities such as ETP, WTP, STP, BIO Gas, and OWS.

Offices

- Head Office – Howrah, West Bengal, with 6000 sq. ft. storage facilities.
- Chennai Office – Design and operational support for Tamil Nadu.
- Pradip Refinery Office – Main control office for refinery operations and surrounding factories.
- Panipat Office – Operational office for Panipat refinery and IOCL petrochemical jobs.

Infrastructure

- Medium & Heavy Cranes
- Welding Equipment/Power Source
- Trucks and Site Vehicles
- Lifting Equipment

- **Material Handling:** 50-ton crane, two hydras, three pickup vans, and access to a 350-ton Farana crane for hire.
- **Tools and Machinery:**
 - 20 welding machines
 - 3 generators
 - 1 blasting equipment set
 - 9 grinding and cutting machines
 - 2 heavy-duty hydraulic jacks
 - Lifting tools and tackles
 - Complete industrial safety gear

Factory

CTC operates small facilities across West Bengal, Odisha, and Tamil Nadu and has partnerships with various factories for structural and pressure part manufacturing, supported by a robust sourcing team.
